Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system set out in Regulation (EU) 2020/852, establishing a list **of environmentally sustainable economic activities.** That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund does not actively make any sustainable investments, however promotes environmental/social characteristics. The Sub-Fund's investment policy excludes or prohibits investments in target companies on the basis of their involvement in certain activities considered to have a negative environmental or social impact. Target companies have been excluded on the basis of their involvement in the activities referred to in Article 2.9 of Appendix 2 to the Statute of the Sub-Fund, e.g. investment, guarantee or other

Sustainability indicators measure how the environmental or social characteristics promoted by a financial product are attained.

provision of financial or other support, directly or indirectly, to companies or other entities that have a significant focus on:

i. production and marketing of tobacco and distilled alcoholic beverages and related products;

ii. financing the production and trade of arms and ammunition of any kind;

iii. casinos and equivalent venues.
